PROFILE

I'm a web developer with a rich background in customer service, including seven years in the restaurant industry, as well as experience in manufacturing and retail. My time in these high-pressure environments has sharpened my problem-solving and collaboration skills, enabling me to deliver top-notch results while meeting tight deadlines. As a junior web developer eager to start my professional career in the field, I am committed to continuous learning and growth, striving to expand my expertise and contribute effectively to the teams I join.

SKILLS

HTML, CSS, JavaScript, Node.js, React, Express, MySQL, Agile Development, Document Object Model (DOM) APIs, Web APIs, User Authentication, OAuth, GitHub, JSON, REST APIs, and more.

PROJECTS

Lead Coder, Full stack | capstone

MAY 2023, BRAINSTATION CAPSTONE

- Built a web application from scratch to track and manage information for the Northumberland Hispanic Culture Club, a non-profit community organization. The tech stack I used includes Node.js, React, Jest, MySQL, API architecture, Knex, Axios, and OAuth. This project involved end-to-end development, from setting up the backend and database to implementing the front-end interface, ensuring a robust and user-friendly solution for the organization.

Workforce , Coder | Google-Fit Hackathon Project

APRIL 2023, BRAINSTATION HACKATHON

- Successfully developed and implemented two interactive sections with seamless animations and modal functionality for a BrainStation Hackathon project at Google Fit. Using the React framework and deploying the project on Vercel, I significantly enhanced the project's innovation and overall functionality.

EDUCATION

BrainStation | Diploma, Software Engineer
SET 2023 - APR 2024, TORONTO, ON

National training Academy | Technician in Business Administration
JAN 2011 - DEC 2012, CARTAGENA, COL

EXPERIENCE

Produce Associate | Market & Smor
JUL 2023 - 2024, COBOURG, ON

- Efficiently manage the daily operation of the produce department, ensuring high-quality standards are maintained in product presentation, freshness, and cleanliness.

- Implement effective merchandising strategies, such as creative display and signage, to attract customers and drive sales, resulting in a noticeable increase in department revenue.

Production Assistant/Set-up team member trainee | Core Molding Technologies
AUG 2022 - JUN 2023, COBOURG, ON

- Performed quality checks at various stages of production, inspecting finished products for defects, inconsistencies, or other irregularities, and promptly addressing any issues to prevent delays or defects in the final product.

- Participated in regular training sessions and skill development programs to enhance technical proficiency, learn new techniques, and stay updated on industry best practices, contributing to ongoing improvement initiatives within the team.

Mixologies | Alquimico

MAR 2016 - OCT 2017, CARTAGENA, COL

- Collaborated closely with the bar team and management to develop innovative cocktail menus, seasonal special, and themed events.
